

The Nomination Committee's in SSAB AB (publ) reasoned statement, including a report of the work of the Nomination Committee

In accordance with authorization granted by the annual general meeting, Board Chairman Bengt Kjell invited four of the major shareholders in terms of votes to each appoint a member to form a Nomination Committee, together with the Chairman of the board, prior to the 2021 annual general meeting. The composition of the Nomination Committee was published on the Company's website on August 20, 2020 with details of which shareholders that had appointed the members. The Nomination Committee comprises the following individuals: Lars Pettersson, Industrivärden (chairman of the Nomination Committee), Pierre Heeroma, LKAB, Petter Söderström, Solidium Oy, Charlotta Faxén, Lannebo Funds and Bengt Kjell (Board Chairman). Between publication of the Nomination Committee's composition and the end of the year, information was available on the Company's website as to how the shareholders were able to submit proposals to the Nomination Committee. No proposals were submitted to the Nomination Committee.

The Nomination Committee proposes the re-election of the current directors Bengt Kjell, Bo Annvik, Petra Einarsson, Marie Grönborg, Pasi Laine, Martin Lindqvist and Annareetta Lumme-Timonen and new election of Lennart Evrell. Marika Fredriksson has informed the Nomination Committee that she declines re-election at the Annual General Meeting. It is also proposed that Bengt Kjell be re-elected as Board Chairman.

The Nomination Committee's proposal entails that during the coming mandate period the number of board directors will continue to consist of eight directors elected by the general meeting.

The Nomination Committee's first meeting pending the 2021 annual general meeting took place in September, 2020, with introductory discussions concerning the proposals that the Nomination Committee is required to present to the general meeting, and at which future work was also planned. Requirement profiles as regards future directors were updated and the Nomination Committee continued its work in sounding out potential future directorial candidates. The

Nomination Committee held four meetings. The Committee has, when preparing its proposal, applied its diversity policy as set out in Rule 4.1 in the Swedish Corporate Governance Code. The Nomination Committee has also interviewed Marie Grönborg, Pasi Laine and Petra Einarsson concerning their view on the work of the board and, where applicable, the committees. The CEO Martin Lindqvist has reported to the Nomination Committee on the Company's operations and strategy and was interviewed regarding the cooperation between the board and the group executive committee. The Nomination Committee has also interviewed the proposed board candidate Lennart Evrell.

The Board Chairman reported to the Nomination Committee on the procedure applied in the Company in conjunction with the annual evaluation of the board of directors. This year, an external consultant was engaged with the task of carrying out the evaluation. At a meeting with the Nomination Committee during the autumn, the consultant gave a detailed account of the outcome of the board evaluation, including the evaluation of the chairman of the board. All in all, the board evaluation demonstrated well-functioning board work with members representing a breadth of expertise, with both solid industrial and financial know-how as well as knowledge of international conditions and markets. The board work is characterized by an open work climate and constructive dialogues, as well as a very positive climate of cooperation between the board, the committees and the CEO. The directors have demonstrated strong commitment with a high frequency of attendance.

The Nomination Committee's proposal means that the proportion of female board members appointed by the Annual General Meeting decreases from 50% to 37.5% when Lennart Evrell is proposed to replace Marika Fredriksson who declined re-election. However, the Nomination Committee's objective is to have an even gender distribution on the Board in line with the ambition stated by the Swedish Corporate Governance Board. The Nomination Committee will continue to endeavor to achieve an appropriate board composition which satisfies the needs of the board for diversity and breadth in terms of skills, experience and background, including gender structure. The Nomination Committee also attaches particular importance to the directors having a reasonable total workload which enables sufficient time and care to be devoted to the directorship in SSAB.

In producing proposals for fees to the board of directors and its committees, the Nomination Committee has, among other things, taken into account board fee levels in similar companies. The Nomination Committee now proposes a small increase in the fees in order to maintain a competitive fee level.

The Nomination Committee works on the basis of the intention that the need for stability and continuity in the Board's work shall be balanced against the need for renewal in order to create the best long-term conditions for well-functioning board work. The candidate proposed for new election, Lennart Evrell, has a master's degree in engineering from the Royal Institute of Technology in Stockholm and a degree in economics from the University of Gothenburg and Uppsala University. His most recent operational assignments were as President and CEO of Boliden, Sapa and Munters. He currently sits on the boards of SCA, Epiroc and ICA and he is a member of the Confederation of Swedish Enterprise's operations board and the board of the Swedish Association of Industrial Employers. The Nomination Committee makes the assessment that Lennart Evrell has relevant experience and knowledge in order to be able to contribute to and develop the board work in a listed industrial company. Lennart Evrell is independent in relation to the company and the company's management as well as to the company's major shareholders. All in all, the Nomination Committee makes the assessment that the proposed candidate meets the requirements for competence and experience that the Nomination Committee has set in its requirement profile and therefore considers that he is very well suited as board member of SSAB.

All in all, the Nomination Committee considers that the proposed Board has a composition of skills and experience that creates good conditions to meet the demands imposed by the operations of the Company.

The Nomination Committee makes the assessment that Bengt Kjell's solid knowledge and long experience of board work makes him suitable to continue to serve as Board Chairman.

In producing its proposal for the election of auditors and fees for audit work, the Nomination Committee has been assisted by the audit committee. The Nomination Committee's proposal follows the recommendation presented by the audit committee.

The Nomination Committee has compiled the information below regarding the proposed candidates (stated shareholdings include holdings of closely related persons and closely related companies), including the Nomination Committee's assessment of each candidate's independence in relation to the Company and major shareholders:

Bengt Kjell

Born: 1954
